

# 2023 Subject Selection Form

## Year 9 Electives

Dear Parents/Caregivers,

We are pleased to be able to begin the course Counselling process for your child for next year. To meet Australian Curriculum requirements many subjects are compulsory in Year 9, such as English, Mathematics Science and Humanities. This form allows your child to select the elective lines to complete their learning pattern.

For more information on choices please refer to the middle school course booklet that can be found on the School website under “Learning” then “Middle School”.

Please complete the form overleaf, considering the following:

- One **green HPE class** must be selected in either semester one **or** two.
- One **orange HPE Elective** class must be selected in the **other** semester.
- Students must select a subject from each line for **both** semesters.
- Student cannot pick more than one subject from a subject area in a semester.
- If students are only wanting to do German or Chinese for one semester, they must choose Semester 1. If they are thinking they may continue into Year 10, they should complete a full year.
- **Light blue** boxes are Year 9 only classes, other than HPE.
- All non-coloured boxes are combined classes with Year 10 students.

Regards,

Jason Plunkett  
Head of Teaching and Learning

# 2023 Subject Selection
