

2023 Subject Selection Form

Year 10 Electives

Dear Parents/Caregivers,

We are pleased to be able to begin the course counselling process for your child for next year. To meet Australian Curriculum requirements many subjects are compulsory in year 10, such as English, Mathematics Science and Humanities. This form allows your child to select from the elective lines to complete their learning pattern.

For more information on choices please refer to the Senior School Course Booklet that can be located on the School website under the Learning menu.

Please consider the following dot points when completing this form.

- Students must select one subject from each line for Semester 1 and 2.
- Students cannot pick more than one subject from a subject area in a semester.
- If students are only wanting to do German or Chinese for one semester, they must choose Semester 1. If they are thinking they may continue into Year 11, They should complete a full year.
- **Light blue** boxes are year 10 only classes.
- All non-coloured boxes are combined with Year 9 students.

Regards,

Jason Plunkett
Head of Teaching and Learning
